**DIESEL FUEL SYSTEMS**

## Diesel Experts

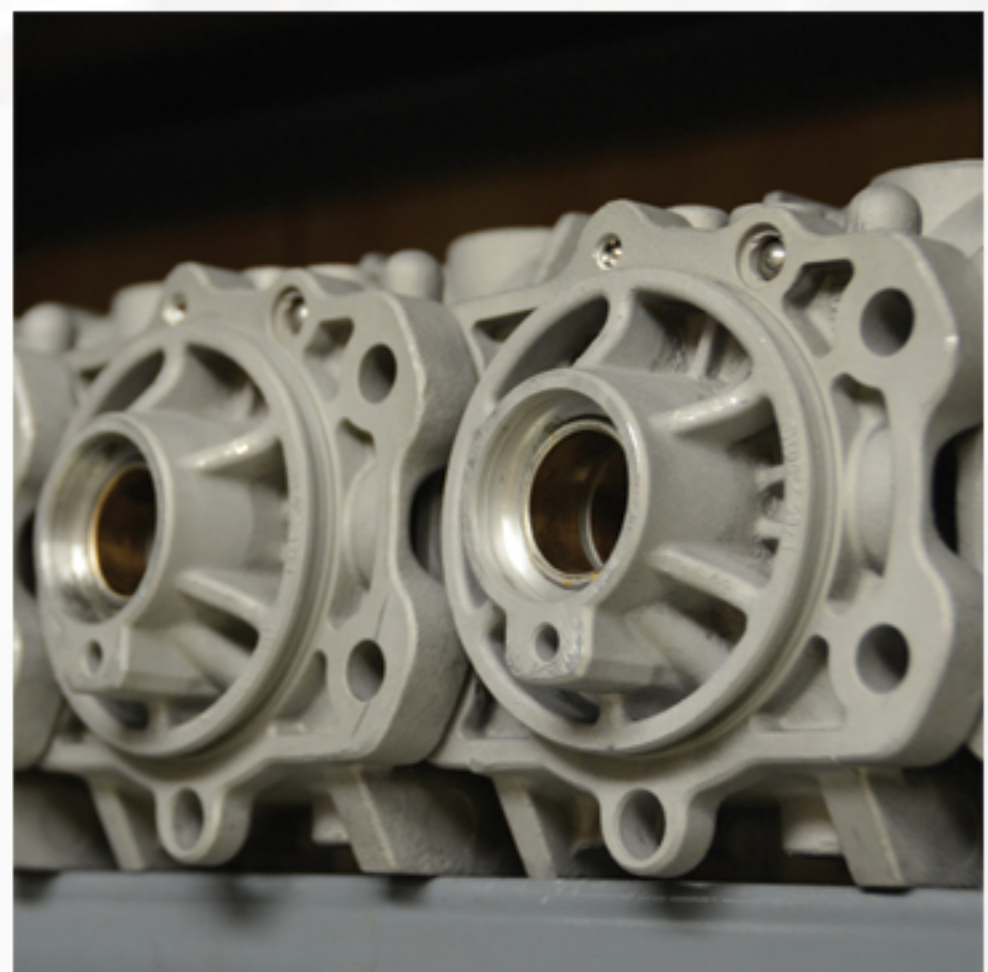

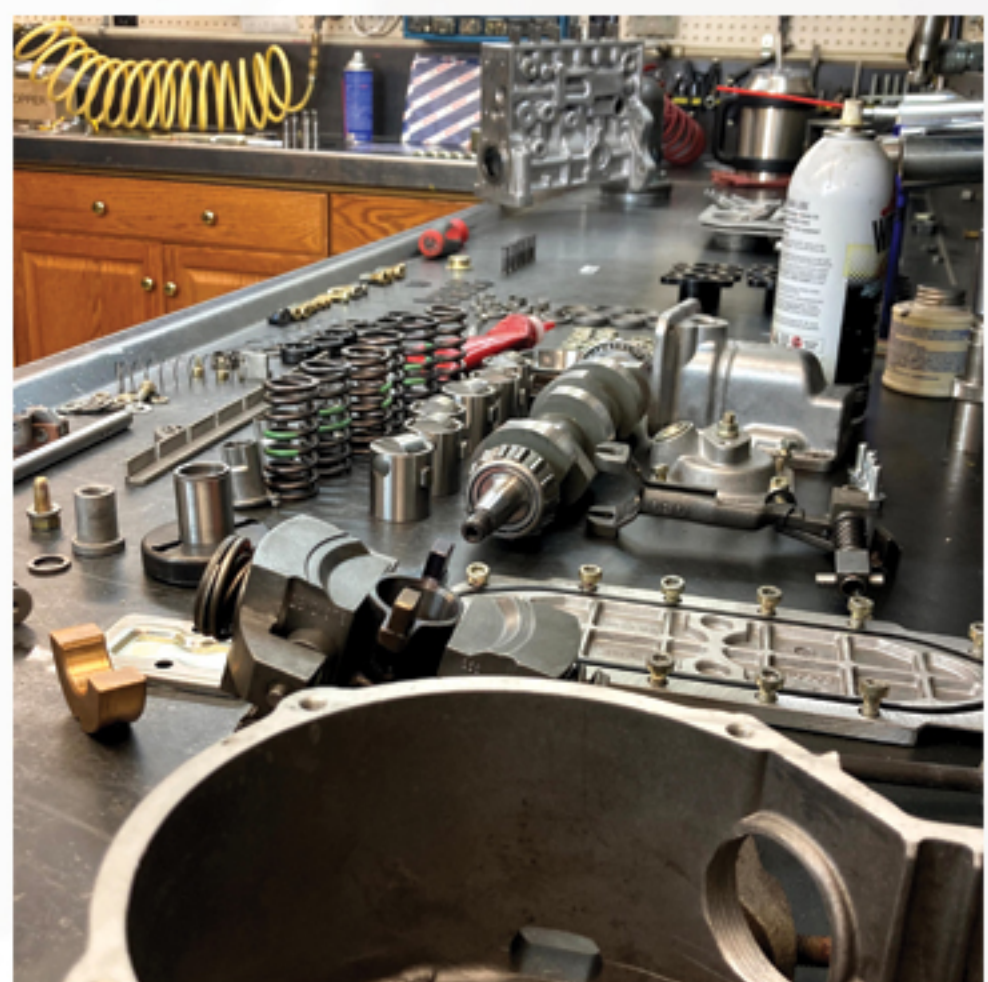

No matter your diesel application, we've got the parts!  
No matter your situation, we've got a solution!

We are able to test, diagnose, and resolve fuel system issues - and work with the major pump, injector and fuel system component manufacturers to supply the right new, rebuilt, repaired, and remanufactured parts.

The range of what we can service is as extensive as the hours our technicians have put into their craft. We are proud to be the resource for nearly-obsolete to brand new parts.

## Cores

Vital to our remanufacturing operations, we are constantly in need of quality cores. The life cycle of most parts require a core charge and the return of a usable core to credit that charge back to customers. This core process feeds the lifeline of remanufacturing and allows us to build reliable and affordable parts.

Maybe that scrap junk lying around the shop are the cores we need?

WE BUY CORES!
