

Core Grading Procedures

Summary, Core Grade Levels

Turbochargers & Cartridges

GRADE C1

Assembly is complete, is of the correct classification and the rotating assembly turns. Either wheel may have rubbed and no other wheel damage is present. Dissassembled and fire damage cores are \$0.00 credit.

GRADE C2

Assembly is complete, and is of the correct classification. At least one of the major components is undamaged. Dissassembled and fire damage cores are \$0.00 credit.

GRADE C3

Assembly is complete and is of the correct classification, but all of the major components are damaged. Dissassembled and fire damage cores are \$0.00 credit.

GRADE C4

Unit is not complete, is of the incorrect classification, has been disassembled, or is a fire damaged core.
